Sreenidhi Jayakumar

Experience Strategist · UX/UI & Experience Design

Atlanta, GA · sreenidhi.des@gmail.com · LinkedIn · Portfolio Password: Keytoworks

Product Designer shaping end-to-end **experience design** for AI-powered software products, from **UX strategy** and **interaction design** through **UI design**, **design systems**, and **usability testing**, backed by a 30% revenue lift, an 80% adoption increase, a $500K seed raise, and 0 to 100 customers across B2B and B2C products. Combines **user research**, **rapid prototyping**, and **user journey mapping** with Agile delivery to turn strategy into sprint-ready, dev-ready product experiences.

WORK EXPERIENCE

BD4 · Product Strategy & Design, Atlanta, GA — Sept 2025 – Present

- Owned end-to-end product strategy and **experience design** for BD4's AI relationship assistant, network builder, and smart onboarding, aligning to OKRs and building engagement strategies that drove adoption across 100 customers.
- Documented business requirements and conducted 15 **user research** interviews to translate user needs into functional requirements and design inputs.
- Scoped AI/ML approaches (LLM reasoning, recommendation, classification) into quick UX mockups, partnering with engineering to de-risk feasibility for 5 features. Introduced fast search and network-builder interaction patterns that cut cross-tool research and build time from ~60 minutes to 3 minutes.
- Owned the **Figma** design workflow end-to-end: set the visual and **interaction design** language, built the component library, mapped user journeys, and delivered prototype-to-dev-ready product screens.
- Built detailed FRDs covering user scenarios and edge cases, partnering with engineering to cut design-to-dev handoff time 60%.
- Designed and built **responsive** app and desktop experiences for BD4 with tailored breakpoints for each, supporting a user base split 70% mobile app and 30% desktop.
- Ran iterative design cycles, gathering user and stakeholder feedback and working closely with engineering through implementation to keep cross-functional teams aligned throughout each build.
- Led beta reviews with investors and 30+ pilot users, creating user guides, running demos, and analyzing usage statistics and usability feedback for a clean launch.

ConverSight.ai · Product Designer, Indianapolis, IN — May 2024 – Sept 2025

- Led **user research** and interviews across 3 **supply chain** enterprise products, a supply chain analytics dashboard, a supply chain planning tool, and a forecast planning tool, turning input from 1,000+ users into prioritized user stories and design requirements that drove a 30% revenue lift.
- Built a cross-platform **design system**, including UI patterns, **interaction design** specs, and a component library, in **Figma**, Lovable, and Cursor, cutting design-dev errors 50%.
- Ran A/B, **usability testing**, and user acceptance testing with Customer Success and Ops, using test statistics to guide decisions and drive an 80% increase in product adoption.
- Led 30+ user studies, synthesizing user insights through active listening, and created UX training materials, coordinating with Customer Success, Ops, and leadership across 3 concurrent product tracks.
- Introduced AI-driven **rapid prototyping** to the design workflow, accelerating product design cycles by 50%.

HighRev.ai · Founding Product Design Strategist, Chennai, India — Oct 2022 – Oct 2023

- Partnered with the founding team and 50+ early customers to define product vision, UX roadmap, and design implementation.
- Designed the visualization and **interaction design** patterns behind the product's revenue dashboard, cutting customers' revenue-planning time by 30%.
- Designed marketing visuals and go-to-market materials for HighRev, supporting fundraising efforts alongside core product design work, helping the company raise its first $500K seed.

DESIGN

User Research, UX Strategy, User Journey Mapping, Interaction Design, UI Design, Wireframing, Rapid Prototyping, Design Systems, Usability Testing, Active Listening, User Insight Synthesis

PLATFORMS

Figma, FigJam, GitHub, Notion, Jira, Adobe Creative Cloud, CMS platforms, HTML, CSS

AI TOOLS

Cursor, Lovable, Replit, Bolt, GPT, Claude

PRODUCT

Product Strategy, Product Lifecycle Management, OKRs & North Star Metrics, RICE & MoSCoW Prioritization, Roadmap Prioritization, Backlog Management, Agile & Agility (Sprint Planning, Standups, Retros), Stakeholder Management, Cross-Functional Team Leadership, Data-Driven Decision-Making, Analytical & Problem-Solving Skills, Lean UX

PROCESS

Agile UX, Lean UX, sprint planning, cross-functional collaboration with engineering & product

EDUCATION

MS, Human-Computer Interaction
Indiana University · 2023–2025

B.Arch, Experience Design
Anna University · 2018–2022

ADDITIONAL EXPERIENCE

Innovation Design Entrepreneur Intern, 16 Tech Innovation District (2024)

UX Researcher, Crisis Innovation Lab, Indiana University (2023–2024)

RECOGNITION

Speaker at IU Board of Trustee Meeting

First Innovation Entrepreneur Intern from Indiana University
